C-SERIES

Catamaran

STABLE | SPACIOUS | UNSTOPPABLE

The C42 is a 4.2m catamaran tender built using autoclaved, pre-preg carbon construction for exceptional strength and lightweight. Its twin-hull design ensures unmatched stability, dryness and comfort, even at speed, while the side console layout adds control, space and ease of use. Purpose-built and performance proven, the C42 combines cutting-edge composite technology with sleek performance on the water.
