Monohull

NEW M35

WEIGHT (CARBON): 65KGS

LOA: 3.5M

BEAM: 1.8M

PAX: 2-3

REC HP: UP TO 15

The **M35** is a 3.5 m monohull tender built using **pre-preg carbon construction** for unmatched strength and ultra-light weight. Its planing hull design delivers a dry, stable ride, while pairing effortlessly with both electric and traditional outboards. Purpose-built and performance proven, the M35 combines cutting-edge composite technology with sleek performance on the water.
